## **Brewer Company wins the Best of Competition for Versa Exam Table The Nightingale Awards 2023 recognize 23 products**

**November 6, 2023—New Orleans**—*Healthcare Design* magazine in partnership with the Center for Health Design and The Healthcare Design Conference + Expo announce the winners of The Nightingale Awards 2023.

The Nightingale Awards—the industry’s leading program to recognize products related to the healthcare built environment—are named for Florence Nightingale, a tireless advocate for the improvement of care and conditions in military and civilian hospitals in the 1800s. The judging criteria for the awards is the product’s contribution or solution for clinical or operational outcomes; aesthetics and innovation; built environment solution, durability, functionality, and quality; industry certifications and standards; environmental sustainability; and list price. To evaluate the entries, jurors visited exhibitors’ booths before the Healthcare Design Expo opened to examine the products, hear the story of their design and development, and ask questions.

Products were judged by:
